LONDON, Sept. 15.-The consternation and horror of the English people over the revelation of the dynamite conspiracy are more interest-ing to-day than the latest disclosures of the plot itself. If printer's ink could produce a panic, London would be on he verge of nervous prostration after glancing at the columns of the

usually solemn and unemotional[public journals to-day. Never before have they so bristled with all the startling devices of sensational journalism. The Daily Telegraph, for example, begins an almost panicky leading editorial thus:

"England learns to-day how appalling has been the danger from which she has been ressued. That there should have been a great dynamite conspiracy plotted in secret and silence by men who are enemies of the human race; that just at the moment when their plans were ripe the police should have surprised and arrested the ringleaders, and that one of the men, the chief of the band, should be a criminal wanted for the last fourteen years, all these facts are elements in a story at once vivid, dramatic, and terrible."

The same newspaper commences a manycolumned account of the conspiracy with a great scare head, beginning in the blackest letters ever used in its columns: "Great Dynamite Piot Against England."

All the newspapers in the country treat the matter in the same fashion. This will give some indication of the popular sensation which has been created, and which has distracted attention even from the critical horrors in the East that had raised public sentiment throughout England to a high state of indignation. The Sultan, in fact, has to thank Tynan and his fellow conspirators for bringing him some relief in an emergency, which President Cleveland's Venezuela message furnished in December last To-day's news develops the conspiracy more clearly, although the police still refuse to make public most of the information in their posses-

Gen. James R. O'Beirne, one of the public most of the information in their possession. There is no longer any doubt, apparently, that the conspirators intended to blow up Balmoral Paisace when the Queen, Caar, and other royal personages were there. The fact that Trana and one of his accomplices had engaged both by a French line steamer leaving Havrenst week Saturday for New York indicates that they planned the outrage for soon after the Cars's arrival in Scotland on next Tuesday. A latter inclipher from Trynan to Kearney, found in the latter's possession at Rotterdam, indicates some weakening in courage on the part of a leaven the Conspirator. Tynan wrote:

"If you do not dare to go to Scotland, come to Beelogue, and we can talk it over. Cowardice cannot be tolerated among our brothers."

The Pai Mail Gazette coutes Trynan as receilly advocating the use of dynamite at a meeting of the Clan-na-Gael in New York. An linkman present who is now in London says:

"When the talk was about dynamite Tynan as iditable had no objections to using it for a special purpose. He was asked what he meant, and leads in the state of the could see his way clear to blowing up Marborough House. Hen to put an immense charge of dynamite there and explode it at a time when the Prince of Wales.

freely and Tynan was drunk much of the time. He was a typical loud-mouthed, cowardly brag gart. He had enough sense not to disclose any of his villamous plans, but succeeded in cresting the impression that he was a dangerous criminal and was plotting mischief. The experience of possessing plenty of money after years spect almost in poverty was too much for him. He indulged all appetites freely. It seems absurd that such a vile monster as he showed him self to be in Boulogne should be able to terrify

His favorite boast in that town was that it was such as he who ruled America; that Irishmen were in full control in that country, and they proposed to rule England, too, ere long. It is confidently believed by the London au-

therities that France will willingly surrender Typan for trial for the Phoenix Park murder. France is heavily in England's debt in the matter of the surrender of Anarchists and other murderers, and she will be glad to return these favors now, unless her Government conceives it be to her political advantage to punish Tynan for conspiring against the Czar on French ter-

Scotland Yard authorities are naturally retlerat about the sources of their information regarding the conspiracy. They acknowledge that they received substantial assistance from the New York police and Pinkerton's Agency. The suggestion that the first hint of the plo tame from the New York friends of the dynamite prisoners just released as a voluntary offering a order to induce the British Government to grant them their liberty is a point which the cotiand Yard officials refuse to discuss. No information will ever be given, of course, regarding any assistance that may have received from the released prisoners.

TYNAN HOULDN'T RISK HIS NECK. Re Intended to Stay in France-Will One of

the Men Turn Informer ! LONDON, Sept. 15.—The Daily News will say to-morrow that the police believe they have all the leaders in the dynamite conspiracy.

It is understood that Bell intended to remain in Great Britain after the proposed explosions had taken place, but that the others would return to America, via Havre, sailing thence on

Typan did not intend to come to Great Britain, as by doing so he would run the risk of failing into the hands of the police, who were anxious to capture him his connection with the Phoenix Park murers, saids from his connection with the dynamite conspiracy, of which he did not know the pullee had any information. He was to stay in France, directing the operations of his fellow conspirators from Boutogne-sur-Mer.

THE NEW IRISH PRISONERS. Bell Says He Was Merely Touring-Tyans

Glasdow, Sept. 15.—Edward Bell, the alleged 4; namite conspirator who was arrested here on Saturday, has made a statement through his in which he says that he is a native of

Berlin, later to London, and finally came to

Glasgow. It was his intention, he says, to sail

found in his possession he says, were not found in the lavatory of the hotel in which he was

in the lavatory of the hotel in which he was stopping, as was said yesterday, but were dropped by somebody in a London music hall, where he bicked them up.

London, Sept. 15.—A despatch from Brussels to the Pall Mall Gazette says that the sum of £2,000 in notes was found in the possession of Kearney, the dynamiter, when he was arrested in Rotterdam.

ROTTERDAM, Sept. 15.—John F. Kearney, alias Wallace, the alleged dynamiter who is under arrest here, was examined by the police officials this morning, but he declined to answer any questions whatever. A letter dated at Houlogne was found in his pockets, and is presumed to have been written by Tynan. In the letter the writer tells "Wallace" and Haines, the other supposed dynamiter arrested here, "If you dare not go to Scotland how, come to Boulogne. Then we will talk our plan over. Cowardice cannot be tolerated among our brotherhood."

Paris. Sept. 15.—P. P. J. Tynan has appealed to United States Ambassador Eustis, and also to President Cleveland, demanding the protection of the United States Government as an American citizen.

JUST A GIGANTIC GOLD BRICK. Irishmen Here Say the Piet Was a Ruse to Help the Prisoners.

The selling of a gold brick to an individual has always been accounted a fairly clever performance. The carrying through of such s ransaction with a nation is not mentioned in the annals of bunco steering. It is declared, however, that the great dynamite plot which the Scotland Yard detectives thought they had nipped in the bud when they arrested Tynan, Kearney, Bell, and Maine was only s gold brick sold to the British Government in order to secure the release of the political prisoners, Gallagher, Daly, and Whitehead, and more particularly Gallagher. That is the conclusion several prominent Irishmen in this city reached yesterday, and in consequence there was a merry falling out among the mem bers of the Committee of Twenty-four, appointed from all the Irish societies in this vicinity for the purpose of receiving the political prisoners as they arrived and caring for them afterward.

Of course, all Irishmen were intensely interested in the cable reports of the arrest of Tynan. Kearney, and Bell published in yesterday morning's papers. After the stories had been read, a few Irishmen just sat down and began to dissect them, Among those who did this were Gen. James R. O'Beirne, one of the Commissioners of Charities and Chair-man of the Committee of Twenty-four;

a felony. Irish dynamiters in the nast have not been accustomed to put their necks into haiters so willingly.

"Considering all these facts and coupling them with some intelligence received from the Amnesty Society in London, the nature of which I am not act liberty to reveal at this time, some of the Irishmen in this city, and I am one of them, believe that this alleged plot originated with the London Amnesty Association, which was charged with securing the release of the prisoners and was its last resource to effect these releases. We believe that, finding that threats and pleadings and petitions were in vain, a committee from the Amnesty Society went to the Home Secretary with this statement: We have discovered the greatest dynamite plot everlanned. The Queen and the Prince of Wales are to be killed, Haimoral Castle and the Houses of Parliament are to be blown up, and a reign of terror is to be inaugurated. Now, then, we will give you the details of the plot upon condition that you release Gallagher. Daly, Whitehead, and others. This is our ultimatum. What will you do about it?

"The Home Secretary came to terms, and the men were released. Then the society's end of the bargain had to be carried out. They all knew Tynan. They knew that he was a braggart. They remembered that, in order to make good his claim that he was "No.1." after the Phoenix Park murders, he purchased, from a makeriof surgical instruments in Dublin, knives like those found near the scene of the tragedy, and hid them in his house where they would easily be found."

On the top of this story came one from O'Donovan Rossa. The veteran dynamiter was found in his office at 13 Vandewater street. He said:

found in his office at 13 Vandewater street. He said:

It was explained by another member of the Committee of Twenty-four that the money found on Tynan, Kearney, and Bell had been supplied by the Amnesty Society in order that the men might have plenty of means to carry out the provisions of the alleged plot. It was added that the Amnesty Society had plenty of money, raised for the purpose of procuring the release of the prisoners. Speaking of the arrests, Gen. O'Beirne said:

"The committee will consult with White-head's sisters to-morrow morning, find out their wishes as to the disposition to be made of their wishes as to the disposition to be made of their brother, and then we will just go down to the Lucania's pier and meet the man and his brother, who is coming out with him."

The members of the Committee of Twenty-four, who are neither Irish agitators nor dynamiters, have decided, since the arrests of Tynan. Kearney, and Bell, to wind up the business of the committee as soon as possible and get off the committee.

It was reported vesterday that Tynan and Kearney sailed from this port by the Hamburg-American line steamer Augusta Victoria of Aug. 13. They were steerage passengers. It was said that Tynan was booked under the mame of A. B. Becker, and that his passage had been engaged on Aug. 11 at the agency of J. H. Rosenbaum, at 388 Grand street.

TYNAN'S BROTHER SKEPTICAL. He Says He Dors Not Belleve His Brother Is in France.

SAN FRANCISCO, Sept. 15.-Many Irishmen it San Francisco were astounded at the news of P. P. J. Tynan's arrest. He has many friends in this city. His brother, who han old San Franciscan, is skeptical regarding the identity of the prisoner.
"It may be like a drowning man catching at

straws," he said, "but then I cannot believe that my brother is in France. There have been so

my brother is in France. There have been so many paipable lies in the despatches about him that I am reasonably led to believe there is some great mistake somewher...
"The English officials have been aching to lay hands on my brother for many years. You may remember that in 1882 they requested his sur-render at the hands of the Washington authori-ties, but as they had no proof against him the United States very properly declined to give him up. min up.

The story of his arrest sounds peculiar to me. My brother is a strictly temperate man, yet the despatches say that he talked too much in a barroom. I'll warrant that is a lie. He never frequents barrooms: in fact, he has not tasted a drop for many years. No, sir, I cannot credit the story."

MAINE CLOSE TO 50,000.

THE GREAT PINE TREE STATE VIC-TORY CAUSES REJOICING.

Populiets Demand Sewall's Retirement-Gold Democratic Candidata Clifford Enthusiantic Over the Result-Vote That Was Cont in the Four Congress Districts.

PORTLAND, Me., Sept. 15 .- The great victory for an honest dollar in the Pine Tree State grows apace. It is simply overpowering Maine has established once more right to her glorious creat, "Dirigo," and the State of Hamlin, of Fessenden, and of Blaine and of Reed has hurled it back at those who would traduce her good name by committing her to the heresles of silverism, and she has done it with tremendous emphasis.

Never did New England Republicanism wit such an inspiring victory as that which swept Maine on Monday with a plurality of 50,000 for Powers. It was the largest Republican vote and largest Republican plurality on record in

The Republican vote has increased nearly 20 per cent. from 1891, indicating that many Democrats must have voted the Republican ticket. The Democratic vote fell off 23,000.

As there were only about 1,000 votes cast for Clifford by the sound-money Democrats, there were undoubtedly from 18,000 to 20,000 Democrats who refused to go to the polls and vote for Bryan and free silver. The Hon. William H. Clifford, the nomine

for Governor of the gold Democracy, when in-formed that the Republican plurality for Governor was likely to exceed 50,000, said: "Good glory for Columbia. I am glad to learn that Maine has put herrelf on record for integrity, honesty, and justice."

When asked if he would like to know how his own vote footed up he answered: "No; it is sufficient for me to know that Maine has repudiated the doctrines of the Chicago platform and put herself on record for

honest money

This morning Gov. Cleaves sent the following to Gov. McKinley: "Hon. William McKinley, Canton, O.: Maine is still loyal to her proud motto, 'Dirigo,' and sends to you her warm

greetings.

"The agricultural and commercial communities of our State have emphasized their devotion to the great principles you so ably represent. Thousands of patrictic Democrats have sent. Thousands of patriotic Democrats interested aided, by their ballots, in our unprecedented victory for good government and a sound and

victory for good government and a sound and unvarying currency."

AUGUSTA, Me., Sept. 15.—Returns from nineteen of the twenty cities and 251 towns give Powers (Rep.) 63,286, and Frank (Dem.), 25,142. This is three-quarters of the total vote of the State. The same cities and towns in 1892 gave Cleaves 32,296 and Johnson 41,341.

The Republican gain in the cities was 19 8-10 per cent. and the Democratic loss was 35% per cent. In the towns the Republican gain was 22 per cent, and the Democratic loss was 41 per cent.

was 22 per cent. and the Democratic loss was 41 per cent.

If the percentage holds in the towns to hear from the Republican total vote will be \$2,500 and the Democratic vote 33,500, making the Republican plurality 49,000. The Democratic vote in 1892 was 55,397 and in 1894 30,021.

The vote for the Populist candidate and Mr. Clifford are included in about 5,200 scattering. Mr. Clifford receiving less than 1,000. The total vote figured up about 122,000.

In the Congress districts Mr. Reed is reclected by 10,474 plurality, a gain of 2,000, and Mr. Dingley by about the same plurality. Mr. Millitsen had about 10,000, and Mr. Boutelle had an increased plurality.

The Republicans carried every county, elected all of the Senators, and 140 out of 151 Representatives.

all of the Senators, and 140 out of 151 Representatives.
LEWISTON. Me., Sept. 15.—Returns received by the Journal from 375 cities, towns, and plantations give Powers 75.384; Frank, 30,181; Bateman, 2,454; Laid, 1,837; Clifford, 574.
These figures give Powers a plurality of 45,203, The same towns in 1892 gave Cleaves 58,023; Johnson, 46,745; Hussey, 3,104; Bateman, 2,207; Knowlton, 185. Cleaves's plurality, 11,278. The remaining towns and plantations will increase the Republican plurality to 50,000. All returns so far received quadruple the plurality of 1892. Congressman Dingley's plurality in this Congress district is about 14,000.

A HOWL AGAINST SEWALL.

The Populists Want Him to Get Out of the Bace Now, Sure Enough,

CHICAGO, Sept. 15.-George F. Washburn, Chairman of the Western branch of the Populist National Committee, was interviewed today by a reporter on the Maine election and made the following statement:

'The results are just what we expected. Maine is my native State, and I know the sentiment there. The vote has no more significance than Arkansas's reply to Vermont, except to emphasize how much of a burden the Democracy has in its Vice-Presidential candidate."

Do you think Mr. Sewall should withdraw! "I certainly do, and the State of Maine also says so. I agree with Tom Reed that 'Sewall's star sinks and Watson's rises.' The voice of Maine does not indicate any mismanagement of the campaign. It is no test of Bryan's popular ity or even of the silver issue. No special effort was made in Maine except by the Republicans Senator Jones and Senator Butler have shown remarkable ability in the management of the national campaign, considering the limited means at the command of both.

"There is an undercurrent of feeling which pervades the nation in support of the claims of Mr. Watson and his friends that he should be recognized. There is force in the statement that 'Mr. Sewall is no more our candidate that is Mr. Hobart.' There is also significance in the attitude of the Middle of the Road men, who say that 'No Watson means no Bryan, I know that these men, as well as the Republicaus, have accumulated a mass of evidence against Mr. Sewall, which they intend to make public, and which may force the Democratic party to a defence of Mr. Sewall's record during the closing days of the campaign, but so

party to a defence of Mr. Sewall's record during the closing days of the campaign, but so long as the issue can be kept on silver Mr. Bryan, as the standard bearer of the allied forces, can keep the enemy on the run.

"The Hepublicans realize this. Therefore, failing to win on principle, I believe their trump card will be to show in doubtful States the incorsistency of Mr. Sewall's record, and how much of a missit he is on the Democratic ticket, It is possible for him to become the hero of the campaign by rising above personal ambition and declaring that the silver cause must win, If, on the other hand, he insiate ou continuing, and the attack on him should result in Hryan's defeat, he would be held responsible by an indignant people, and would be scorned and hated as the most unpopular man in America.

"Mr. Sewall cannot be forced off the ticket, It would be better for him to remain on than to retire in any way that would do his party injury. The Maine election is over; he has demonstrated his weakness. His party vote in his own ward was only about one-half what it was four years ago. He has contended four times for election as Alderman and has been defeated whee, the last time by a shipjoiner, who polled 121 votes to his 78. I understand, further, that Mr. Sewall attended the June Convention of his party in his State which nominated Mr. Winslow, a gold Denocrat, on a gold platform, and although Mr. Sewall was them he offered no objection to platform or ticket, and seminally acquiesced in the nomination of the candidates and the sdoption of the platform, which was by acclamation.

"We have had hard work to restrain out people up to the-greent time, and the gravity of the situ-

acclamation.

We have had hard work to restrain out people. We have had bard work to restrain out people. "We have had hard work to restrain out people up to the present time, and the gravity of the situation has not dawned on the Democratic leaders. The crisis is at hand, and I trust a way will be found to unite all the reform forces upon two candidates representing both sides, to resist the combined forces of the Cleveland Republicans and the McKinley Democrats. The only way to unite is for the Democrats to take our man."

MAINE'S VERDICT IN CHICAGO. Republicans Stir Up the Town and Popo crats Whistle for Courage,

CHICAGO, Ill., Sept. 15 .- Popocrats in Chicago are trying to affect indifference and an "I-toldyou-so" air over the news from Maine, but the effort is not a success, and the Republicans are showing their joy to-night in a noisy, demonstrative manner. The various political headquarters are crowded, and bonfires and displays pyrotechnics illuminate the evening sky. The first effect of the landslide will, it is expected, be a change in the itinerary of the Hoy Orator. Those who have all along declared that it was useless for him to waste his time in New York or other Eastern btates will demand that

some attention be paid to them now. Chairman Jones was one of the strongest opponents to the invasion of the "enemy's country" idea, and it is considered quite likely that he will have something to say to Bryan as soon as he arrives and has had time to digrest the news after consultation with other members of the National Committee. Committee.
That it means Sewall's retirement is regarded

CLARK IN SEWALL'S PLACE. Report that the Maine Man and Tom Waton Will Both Withdraw.

LITTLE ROCK, Ark., Sept 15 .- A close personal friend of Senator Jones, Chairman of the Popocratis National Committee, told THE SUN correspondent to-night that in less than one week Mr. Sewall would retire as the Democratic candidate for Vice-President, and that Chief Justice Clark of North Carolina would be placed on the ticket by the Popocratic National Committee.

The man who gave this information was a delegate to the Chicago Convention and represented Arkansas at the notification meet-ing in Madison Square Garden, New York. said further that the relection of Chief Justice Clark would meet with the hearty support of Senator Butler of North Carolina who will see that Mr. Watson is also withdrawn as a Vice-Presidential candidate.

TOM WATSON IN LINCOLN.

He Thinks "the Maine Election Speaks for Itself-and Mr. Sewall,"

LINCOLN, Neb., Sept. 15.-Tom Watson arrived in this city at 6:40 P. M. He spoke in Wahoo this afternoon, and will make a speech here to-morrow afternoon. To-night Mr. Waton held a reception at the Lincoln Hotel, the headquarters of the Populists. A number of prominent Middle of the Road Populists called upon him. To callers he repeated his familiar denunciation of Sewall, but when asked if he had anything to say concerning the election in Maine he smiled and remarked:

"I think the Maine election speaks for itself— and Mr. Sewali."

and Mr. Sewall."

Further than that he had nothing to say.

GOV. STONE EXPECTED IT.

Why the Popoerate Didn't Haif Try to Make Any Showing in Maine. PEORIA, Ill., Sept. 15.-Gov. William J. Stone of Missouri reached here this morning. In regard to the Maine election Gov. Stone said the Democrats" did not expect to make any show-"Democrats" did not expect to make any showing there and the result was no surprise to him. He said when he visited Mr. Bewall at Bath, after the notification meeting, Republican victory was aiready evident.

Mr. Sewall showed him 135 notices of Republican meetings to be addressed by well-known orators, while the "Democrats" had but two or three speakers of equal distinction and ability at work.

BRYAN CHEBRED AS AN ANARCHIST An Episode of the Boy Orator's Louisville

Meeting. LOUISVILLE, Sept. 15 .- Although the Republicans say there is little or no defection from the ranks, two well-known members of their party here have gone over to Bryan. One Mr. Matt O'Doherty, a lawyer, who ran for leutenant-Governor on the ticket with Col. Bradley against Gen. Buckner eight years ago. The other is David W. Fairleigh, also a lawyer. Mr. O'Doherty presided over one of the Bryan meetings last night, and in introducing Senator Blackburrn before Mr. Bryan came,

said: "My presence on this station to-night emphasizes my departure from my past political associates. My Democratic friends, I have fought against you in the past, but I would sacrifice my self-respect if I did not support you now that I think you are right." He said he had not left the Republican party, but the Republican party 1 ad left him. He said that the Republican party had left the party of Biaine and Lincoln. He alluded to Bryan as the greatest aparchist that ever lived, and there were wild cheers. This remark led to funny mistake later. After Bryan's speech Joe Blackburn came forward and started to

ring in one of his brimstone illustrations. 'Who is the recognized leader of the Anarchists in this country?" cried Senator Blackburn. The crowd remembered what O'Do-

back. "Hold on a minute," continued Mr. Blackburn, "it's Herr Most," which seemed to surprise the crowd.

There are two Republicans on the bench of the Court of Appeals, Judge Guffey of Edmonon county and Durell of this city. Both are for silver, but they say they will support the for sliver, but they say they will support the Republican ticket, though they take no part in the campaign. This morning Mr. St. John Hoyle, who was the party nomines for the Senate against Hiazaburn last winter after Dr. Hunter withdrew, published a statement denying that he would vote for Bryan. He used to be a silver man, but now he says he stands on the Republican platform.

CABLE CAR HITS HORSE CAR. Passengers Throws from Their Seats and

An East Broadway car, with six passengers

aboard, proceeded slowly up Park row last night at 8 o'clock. A cable car of the Third avenue line, with a trailer and a heavy load of passengers, followed closely behind. At Pearl street the East Broadway car haited to allow a passenger to alight, and before Gripman George Donohue could stop the heavy cable car it crashed into the rear of the smaller convey-

passengers in the East Broadway car The passengers in the East Broadway car were thrown violently from their seats to the floor, but none was seriously injured Maggle Connell of Flatbush struck her head avainst the side of the seat raising a large lump. Norah Donohoe, who lives in Mangin street, and Charles Gordon of 63 Monroe street were also slightly injured, but they refused medical attendance. Gripman Donohoe said he was unable to stop his car because the rails were slippery from the rain.

A Broadway cable car in charge of Gripman Michael McGestrick of 1,013 Lexington avenue was run into by another cable car going in the same direction at Broadway and Fulton street yesterday morning. The gripman was knocked down, and an artery in his left leg was ruptured. No one else was injured.

A Four-year-old Bounced Out of the Feader, but Isn't Hart Much.

STRUCK BY A TROLLEY CAR.

While four-year-old Autoni Porcillin of 74 Smith street, Brooklyn, was crossing the car tracks at Broadway and Lynch street vesterday afternoon he was atruck by a trolley express car of the Brooklyn City Railroad. He was scoped in by the fender, but bounced out, striking the payement just as the car was stopped. The only injuries he received were several cuts and bruises on his left knee, which were bandaged by Ambulance Surgeon Horni of the Eastern District Hospital.

EXPLOSION AT THE IMPERIAL. The Cap of a Waste Steam Pipe Blows Of Atarming the Tenants.

The cap of the waste steam pipe of a boiler of the liotel Imperial blew off yesterday, shaking the building and enveloping with steam the the building and enveloping with steam the builer is located. Paragra-by, as well as tenants, thought for a time that the hotel was on fire. Some of the tenants took to the fire secapes and shouted for help.

So large a crowd gathered in Broadway that the cable-car traffic was impeded. Frank Lawlor, one of the employees in the engine room, was slightly cut in the face.

Until a new cap to the steam pipe could be fitted the fires under the boiler affected had to be drawn. This resulted in a number of electric lights being temporarily rendered useless.

BOULOGNE-SUR-MER, Sept. 15.—The Public Procureur to-day reexamined Tynan, and questioned him regarding his complicity in murders of Lord Frederick Cavendish and Mr. Burke in Phomix Park, Dublin, Tynan denied that he actually took part in the murders. He is aware that his associates in Glasgow and Rotterdam are under arrest.

DOWN WITH THE SULTAN!

THE YOUNG TURKS INCITE THE PEOPLE TO DETHRONE HIM.

Merions Trouble Expected at Constantino ple Within a Week-British and French Fleets Near By-The Baneroft Will Be Our Guard Ship in Turkish Waters, LONDON, Sept. 15.-The Standard will publish

to-morrow a despatch from Constantinople saying that the Young Turk party is covering the city with placards inciting the people to dethrone the Sultan.

Serious trouble, it is added, is certain to occur within a week. Old Turkish troop ships are nightly deporting Armenians to the Black Sea. where, it is believed, they are drowned.

The British residents, at the instance of the British Embassy, have telegraphed to Lord Salisbury, saying that their lives and property are in danger. The French residents have taken similar action. British and French fleets are now near the mouth of the Dardanclies.

Fund Pasha, one of the Sultan's aide-deamps, was questioned as to how long the forts along the Dardanelles could check the passage of the war ships, and he replied that they could stop them for almost half an hour.

Mr. Gladatone has written a letter in which he promises to speak at an anti-Sultan meet-

The Chronicle and the Daily News will publish to-morrow many columns of despatches saying that the European nations are rousing themselves against the Sultan, though the semiofficial journals are callous to the sufferings of the Christians in the Turkish dominions.

PANIC IN GALATA. CONSTANTINOPLE, Sept. 15 .- A serious panic occurred to-day in the Galata quarter in consequence of the arrest of an Armenian in whose possession were a number of incriminating let-

Everybody rushed into their houses and the doors of shops and dwellings were hastily barred, the people fearing a repetition of the looting and massacring. The panic spread to Pera, and similar scenes were enacted there. It was not until some hours after the arrest was made that the fears of the people were allayed and the shops reopened.

THE BANCROFT'S MISSION.

If a Passage to the Hosporus Is Refused Her, She Will Still Go On.

WASHINGTON, Sept. 15 .- The assignment of two additional war ships to the Mediterranean fleet is accepted as evidence of a decisive move on the part of the European powers in dealing with the Turkish situation, and, while it is not admitted even yet that the Bancroft, which sailed to-day, is under orders to proceed to the Bosporus, there is no longer the slightest question as to her mission. The Administration proposes she shall be the United States guardshipgoff Constantinople, whether the Porte grants the necessary permission or refuses it. In case of refusal this Government will hold that it has never accepted the Berlin agreement as excluding it from naval representation in Turkish waters, and that, not being a party to that agreement, this country cannot be excluded, under the laws of nations, from due naval representation there.

The departure of the Bancroft this afternoon to be followed in three days by the Cincinnati, bound for the same station, is looked upon in official circles as indicating some new and un-expected move by this Government in Turkish affairs. The utmost secretiveness is maintained relative to the destination of both ships, and the real object of increasing the fleet already within a few hours' sail of the Levant. That Turkey has not given this Government permission to send the Bancroft or any of its war vessels through the Rosporus is not denied, and just the object in despatching them, with the possibility of the Porte's making a firm protest against their pres-

ence, is not explained at the department. Especially in view of the circumstance that Turkey in response to our request to permit a vessel to pass the forts last January expressly forbade her to do so, gives additional interest to the attitude that may be maintained by the Administration with reference to Turkey. fact that both vessels have been supplied with charts of the Bosporus and the waters near Constantinople, emphasizes the strong impression that eventually Minister Terrell will have at his immediate call two vessels of war capa-ble of landing a fairly large force for the preservation of American lives and interests around

the United States Legation. Mr. Terrell some wreks ago made an urgen request that the Bancroft and some other vessel of her type be ordered to Turkish waters and stated that, while Turkey showed a disinclina stated that, while Turkey showed a disinclina-tion to give permits, it was not improbable when they were ready to proceed through the forbid-den waters the necessary permission would be given. To force the Bosporus and anchor these two ships off the Turkish capital would not be equivalent to an unfriendly act toward Turkey in the opinion of the State Department officials, although they prefer that permission be given.

Turkey in the opinion of the State Department officials, although they profer that permission be given.

The general opinion is that when both vessels have reached the Levant the Porte will yield to the argent solicitation of Mr. Terrell and the permit will be issued. At present all powers that were represented at the Berlin Congress maintain small ships, carrying gune of reduced calibre, and generally called guard vessels, immediately off Constantinople, ever ready to land crews at a signal from the legations. This Government however, has been deprived of a war vessel there, and should a revolt against the present Sultan menace Americans, Minister Terrell would be compelled to depend upon the guard ships for protection.

It is said to-day that the Government would have sent the Bancroft last winter, and perhaps some other ships across the ocean, but for the protests from the Ports against such action, and the energy displayed by the Turkish Minister in Washington in representing that Turkey would regard insistance to be represented in the guard fleet as exceedingly discourteous. This same Minister has conducted an onergetic correspondence with the State Department recently on the same subject. His recall was announced some months ago, but owing to his success in preventing the Administration from sending a guard vessel to Constantinopie his period of office has been extended by the Ports.

The departure of the Bancroft is said to have been hastened at the instance of Secretary Olney, and if the Cincinnatican coal in time she will sail also before the close of the week. The practice vessel will go first to Fayal for coal and thence will proceed to Gibraitar and on to the Levant, where she is under orders to announce her arrival to Minister Terrell. The Cincinnati being three times the size of the Bancroft and much faster, will proceed directly to the Mediterranean and join the Bancroft at Gibraitar.

Popocratic Majority There Is Only 85,640. with Two Countles Missing.

LITTLE ROCK, Ark., Sept. 15 .- Official returns from the recent election have been received by the Secretary of State from all the counties in the State except Scott and Logan, and the majority for Col. Dan W. Jones and the remainder of the Popocratic State ticket is only 38,640. The increase in the vote for the Republican ticket over 1894 is in the neighborhood of 20,000.

The result is a great disappointment to the Popocrats, as it was confidently believed that the ticket won by at least 60,000 majority. The Gazette of this city, the State organ of the Popocrats, up to Sunday claimed the State by

80,000. Popocratic leaders here say the large decrease is due to the fact that a large number of Democrats remained away from the polls, refusing to vote because Cal. Jones, the Popocratic Gubernatorial candidate, had proclaimed from every stump in the State that he would not support the nominee of the Chicago Convention if he happened to be a gridbug or

the Union station in Detroit, was caught last night in the act of robbing United States mail ouches. He was placed under arrest, months there has been a leak in the postal service between this country and Canada which the detectives were unable to find. Suspicion lowever, pointed to Laraway, and after much difficulty the crimes were traced to him.

Inspector Stuart said to-day that Laraway's thefts had extended over a period of fifteen months, and there was no telling how many letters he had stolen. Last night he took fortythree. Complaints have been coming in for several months from Canadian correspondents of Chicago banks. Extra precautions were taken in the matter of sealing pouches, and men were concealed in the cars, but nothing wrong was discovered. Then it was found that sacks had been cut open and resewed with soiled thread.

Men were detailed to follow the vans on bicycles, others rode on the roofs of the baggage cars and watched the clerks, and it was at last decided that the work was done in a little brick building in the Union station at Detroit, where the mail is transferred. Laraway, a Canadian worked there at night, but could not be watched, as there was only one door and no window. special compartment was built adjoining, but roved impracticable. At last a tunnel under the building was made, and the despatch announcing the capture of Laraway in the very act of cutting open a sack proves how success ful this plan was.

An Alleged Bicycle Thief Also Knocks Down a Policeman. Frederick Meyers, aged 21, of 303 East 103d street, who had been arrested for the larceny of two bicycles from a flat at 2,068 Third avenue last July, created a scene in Harlem Court yes-

last July, created a scene in Harlem Court yesterday. Detective Brown of the East 104th street station traced one of the wheels to Frank Herter of 325 East 104th street. Herter said that he had got the wheel from Meyer and appeared against him in court.

When Herter had finished his statement Meyers turned and, before any one could interfere, dealt Herter a blow in the face. Detective Brown and Policeman Block of the court squad made a rush for the unruly prisoner. Block was the first to reach him and Meyers knocked him down. Meyers was finally knocked down and secured. During the row his sister, who was present, screamed, and had to be led out of the room. A charge of assault was added to the complaint of burgiary against Meyers and he was held on both charges.

Youthful Dimensions, but the Old Big

Four Still the Dominating Power-The

Gyrations of W. Henry Clay Sutsen. BUFFALO, Sept. 15 .- The Democratic State ommittee, at its meeting to-night, formally selected Senator Grady to be temporary Chairman of the Convention. All day long telegrams have been sent to Senator Hill asking ilm to change his determination and come here.

It has been even suggested that the Convention as a body should invite Senator Hill to come to Buffalo, but Major Hinkley and John C. Sheehan and others who were with Senator Hill at Albany last night declare that he will adhere to his resolution and remain away from the Convention. The Tammany delegation are to meet at

9:30 to-morrow morning to discuss candblates. Mr. Sheehan said to-night that it was utter consense to regard for a moment Henry Clay Sulzer as a candidate either for Governor or Lieutenant-Governor. The Brooklyn delegates are also to meet tonorrow morning. They are favorable to the nomination of Gen. Catlin for Lieutenant-Gov-

ernor, but it is ascertained that Gen. Catlin himself does not want the nomination. Anthony N. Brady of Albany has arrived, and has taken charge of the Thacher boom for Governor. Mr. Brady is very friendly to Mayor Thacher, and, inasmuch as he is the warm friend of Sen-

ator Hill and Senator Murphy, he is looked ipon here as the representative of the two United States Senators. Trouble broke out in the Brooklyn camp late to-night, when the friends of John Delmar declared that they would make war on Bernard J. York for State Committeeman. The contest will be settled at the meeting of the Brooklyn dele-

gation in the morning.

This Convention will be known henceforth as the green goods Convention of the Democratic party of the State of New York. All the news and all the observations to-day warrant the assertion that William J. Bryan is to get the poorest kind of sawdust and brown paper. That part of the game is to be carried out to the letter, it is declared. The Hungry Joes of the Democratic party here, however, may not be able to deliver the other cheap stuff they have brought along with them. To illustrate these observations, it may be announced that, although they are absent from

the scene, this Convention is under the complote domination of Senator Hill, Senator Murphy, Richard Croker, and Hugh Mo-Laughlin, the Democratic Big Four of the State. No State Convention in the last ten years has been more completely under their control than this one. In order to preserve the regularity of the Democratic State machines Bryan is to be endorsed, but not one of the Big Four believes that he has the slightest chance of carrying New York State. They all openly declare this to their friends, and they know full well, and admit it, that in the campaign that is to follow the adjournment of this Convention Bryan and the State ticket will receive no support from the soundnoney Democrats of the State. They maintain therefore that it is only an empty honor that is o be given to Bryan in this Convention, but at the same time they have preserved the regularity of the machines and paved the way for their further usefulness in the State.

In the estimation of those fully acquainted

with the facts the leaders of the Democratic State machine may be able to give the receptive Bryan a gold brick, but they will not be able to hoodwink and bamboozle the sound-money Democrats of the State of New York. John C. Sheehan, the alleged leader of Tammany Hall, is the bearer of the second gold brick. He arrived to-night from Albany, where he had passed han brought with him a draft of the platform night, and this draft, while endorsing Bryan. merely says in addition that the Convention ratifles the acts of the Chicago National Convention. This draft of the platform siurs over the platform of the Chicago Convention by merely rati-fying the acts of the Chicago Convention. It does not go into details at all. This draft was prepared for no other purpose than to escape the wrath of the sound-money Democrats in case this Convention should accept in all its details the Chicago platform-free silver, income tax, repudiation, and the attack on the Supreme Court of the United States. All those undemocratic doctrines are glossed over in this draft which Mr. Sheehan has in his possession. It is a gold brick in that it is the object of this draft to prevent the sound-money Democrata, who are to assemble in the Brooklyn Academy of Music on Sept. 24, from nominating a second State ticket, and also to prevent the nomination of second candidates for Congress and for the Assembly. It is the present intention to jam this platform through the Convention. This is but another chapter in the cowardly conduct of the regular Democratic organization of the State, which includes Tammany Hall and the Kings county Democracy. It is not believed here that the sound-money Democrats will be bamboozled by this business, bus that they will proceed at their Convention to nominate a second Democratic State ticket, and also afterward to nominate second candidates

for Congress and the Assembly. It is certain in the estimation of those who have been through the State that the Democratic voters will see clearly through all of the subterfuges of this Convention. It is true that a new Big Four was organized here to-day for the purpose of seeing to it that Bryan was not only endorsed, but that the Chicago platform

was accepted in ail its details. The Democrats of the State must not laugh when the names of this Big Four are printed. They are ex-Senator Norton Chase and Internal Revenue Collector Louis W. Pratt of Albany, Mayor McGuire of Syracuse, and Norman E. Mack of Buffalo. They are not regarded as heavy weights, and at times to-day they believed that they might be strengthened if they brought to their aid ex-Congressman H. H. Rockwell of Chemung.

But Mr. Rockwell cannot be said truthfully to be a member of this new Hig Four for the reason that Chase, Pratt, McGuire, and Mack are exceedingly jealous of their audden notoriety. It is true that this new Big Four have met with disastrous defeat all day long, and it may be that they will be defeated in their efforts to compel this Convention to endorse the Chicago platform in all its details instead of accepting that subterfuge contemplated by John C. Shee han.

This new Rig Four started out this morning after the arrival of Chairman James W. Hink ley to upset the programme which was arranged in Senator Hill's home at Albany last night. This programme named Elllott Danforth as the new Chairman of the Democratic State Committee to succeed Major Hinkley. Major Hinks ley decided over a month ago to retire, because he would have nothing to do with the manage ment of the campaign in the State. Hinkley invited Mr. Bryan to visit the Winsookie Lodge when Bryan was bustling through

the Catskills.
On that visit Major Hinkley informed Mr. Bryan that ne was to retire as Chairman of the State Committee, and Mr. Bryan was greatly distressed by the news. He begged Mr. Hinkley to remain, and Mr. Hinkley replied that he con-
